

### COLD SPRINGS CANYON PROJECT

The ski area within the ski area. A special place to glide down a wide-open bowl, navigate through trees, and test your skills down steep chutes. This is the proposed Cold Springs Canyon project area that will expand the skiable terrain by 380 acres at Sun Valley Resort.

When the project is complete, it will include replacing the resort's oldest chairlift, Cold Springs (#4), with a detachable quad, providing a seamless transition to The Roundhouse for a bite to eat or to the Roundhouse Express gondola and Christmas (#3) chairlift. For those who prefer groomers and gradual pitches, the Lower Broadway run is being extended 3,400 feet, lined with highly efficient snowmaking guns, all the way to the new Cold Springs lift lower terminal. Construction may begin as early as Summer 2018.

Expert Only	Terrain Features	Adventure Trails	
Family Area	Slow Zone	Snow Making Trail	Ski Area Boundary
Detachable High Speed Quad Chair	Triple Chair	Double Chair	Gondola
			Moving Carpet

Emergency Telephones located at all Lift Stations

The difficulty ratings assigned to trails at Sun Valley are based on difficulty relative to other trails on the same mountain. Users of all ability levels should begin with easier trails before advancing.

Bald Mountain is located in the Sawtooth National Forest and on public lands managed by Twin Falls District-BLM. Sun Valley operates under a Special Use Permit from the U.S. Forest Service.
